REFUSES TO HALT, GIRL IS KILLED BY SENTRY

BALTIMORE, Md., May 22.—Strolling through Guyana Park last night with a soldier, Marion Riley, a pretty eighteen-year-old girl, was shot through the breast by a Fourth Regiment sentry when she and her escort failed to obey the sentry's order to halt. The bullet passed through the girl's body and she died an hour later at the Franklin Square Hospital.

OWEN JOHNSON DIVORCED.

RENO, Nev., May 22.—Mrs. Esther Cobb Johnson, wife of Owen Johnson, novelist, has obtained a divorce here on grounds of desertion. After the decree had been granted Mrs. Johnson failed to appear for the trial. She is known on the opera stage as Mrs. Cobb. Her husband, who said, left her because he could not stand it to be near children, and there were children of both by former marriages.

The Evening World's Home Garden League

QUESTION AND ANSWER COLUMN

Conducted by
F. F. Rockwell, Consulting Agriculturist.

This "Question and Answer Column" hereafter will be published in The Evening World Saturdays, instead of Tuesdays, in conjunction with Mr. Rockwell's articles on gardening which appear every Saturday.

I want to answer again, as prominently as possible, all those who continue to write in saying that they have read "somewhere" that seed potatoes and other seed would be given free to those applying for it. The Evening World has absolutely no seeds of any kind for distribution, and I do not know of any source from which they can be procured free, as the supply for the free distribution by the Congressmen has, I believe, been used up long since.

A GARDEN IN SAND AND ASHES—MRS. H. R. Rockaway Beach, Long Island: "I have a piece of ground practically all sand with which a great deal of ashes has been mixed. Do you think that this is any good for planting? Please tell me what to do with it to get it ready for gardening."

Some of the best vegetable growing in the country is done in sections where the soil is almost pure sand. The coal ashes will be just as good as any other material, especially if they have been sifted. Of course, all clinkers and cinders should be raked off after the ground has been made up. On soil of this kind use all the manure possible, also a generous amount of fertilizer, but the latter should be put on always on the surface and preferably just before planting or even between the rows while the plants are growing. The most important factor in succeeding with this sort of soil is having plenty of water, either naturally, not more than a foot or so below the surface, or available for the application with a hose or watering can during dry weather.

GROUND THAT PACKS OVER—SPROUTING SEED—W. K. Herkimer Street, Brooklyn, N. Y.: "Of the several vegetables that I planted last month only radishes have come up. My ground is largely clay, and I have added sand, ashes and manure, still a hard crust has formed over the seed. Do you think that this has been the trouble? I have another plot of clay soil to spare up. Is there anything that I can add to help it besides ashes and street sweepings? Last year my tomato plants bloomed but my flowers fell off and I had no fruit. What was the trouble?"

This correspondent has experienced the same trouble as many others this year. It has been a bad season for early planted seeds. In very heavy soil germination can be made more certain by covering the drills or furrows in which the seed are planted

ACTRESS WHO TAKES LEADING ROLE IN BIG MOVIE PRODUCTION

ALICE JOYCE IN "WITHIN THE LAW," LOEW'S THEATRE.

HELD IN MURDER CASE.

Police Arrest Chauffeur, but Give No Reason for Suspicion.
Thomas Maloney, nineteen years old, a chauffeur, living with his parents at No. 46 Moore Avenue, Brooklyn, was arrested early today by Detectives Husey and Ward as a suspect in connection with the killing of Albert Starie at Danbury last Saturday.

According to the police, Starie apparently was shot by a burglar he had surprised in his home. Maloney denies having been in Connecticut and the police do not give their reason for suspecting him.

ECZEMA HEALED BY CUTICURA

Itched So Could Not Sleep.
Hand Inflamed. Could Not Do Any Work.

"I noticed an eruption on the back of my left hand, and I let it go a few days, but it became worse. I was told it was eczema and was treated, but was not helped. The skin came off and my hand became inflamed, and a few weeks later it broke out on my right hand. The itching bothered me so I could not sleep. Large blisters came on my hands and I could not work."

"I was advised to use Cuticura Soap and Ointment which I did. After a few applications I noticed that my hands were getting better and now they are healed." (Signed) G. E. Anderson, 39-11th St., Troy, July 3, 1916.

Make your skin beautiful by using Cuticura Soap daily for the toilet, and Cuticura Ointment for first signs of pimples, redness or roughness.

For Free Sample Each by Return Mail address post-card: "Cuticura, Dept. H, Boston." Sold everywhere.

How Duffy's Helps Health

When you take the prescribed dose of Duffy's you are taking a medicinal whiskey. What Duffy's is intended to do is to stimulate the normal action of the organs, and this it does.

It is the body itself that throws off disease, and all

**Duffy's
Pure Malt Whiskey**
can do is to put the body in right condition for this work. Because it is one of the purest tonic stimulants known to science, Duffy's encourages healthy action and strengthens the stomach, on which bodily health depends. For 36 years it has proved invaluable for building up and giving strength, and this is why thousands have testified that they always

WROTE A SUICIDE NOTE.

But Mrs. Moller Won't Die Yet, Hospital Doctors Say.
Mrs. Helen Moller, thirty, of No. 312 Manhattan Avenue, Manhattan, was taken early today to Knickerbocker Hospital, a prisoner, charged with attempted suicide.
Her husband, Max Moller, a moving picture operator, came home and found Mrs. Moller groaning on the bed. Beside her was a note reading: "Dear Pop: We are gone, never to bother you any more. I have suffered enough. Please bury us in the Lutheran Cemetery. Lovingly, Mom."

Mrs. Moller told her husband she had taken bichloride of mercury and had also given some to their four-year-old son Alfred, but Dr. Mills found the boy had not been given any. Mrs. Moller will recover.

A Little Supper illustrating the many uses of MAZOLA

the new and better oil for
deep frying, sautéing, shortening and salad dressings

HERE is a suggestion for one of those little home suppers that the New York hostess prepares so exquisitely and everyone finds so enjoyable.

The dishes are all especially chosen because they give an excellent idea of the delicate flavor of foods prepared with Mazola.

This question of cooking mediums, shortening and salad oils, is growing more and more troublesome—what with the high prices of lard, butter and olive oil, and a woman's instinctive feeling that the only fats really suitable to eat are those from edible sources.

Mazola is a pure oil pressed from Indian Corn. America leads the world in the production of corn—and Mazola, pressed from the heart of corn, is a cooking medium as pure, sweet and wholesome as the most delicate food cooked in it.

And for salad dressings, a trial of Mazola in Mayonnaise, Russian or French dressing will show you that here at last is an oil that takes rank with any salad oil you ever used—and at a fraction of the cost.

Another thing, Mazola comes to cooking heat long before it smokes. Test it with a bit of bread as you do other fats, and you need never have the smoke or smell of burning fat in your apartment again.

Every woman should try these five recipes. Mazola can be had from any representative grocer or delicatessen dealer—pint and quart cans and 15-cent bottles.

You will find Mazola economical—since it keeps perfectly under all conditions, does not burn, smoke or absorb odors, and may be used over and over again.

The Mazola Book of Recipes is remarkably complete and worth while. The dealer who sells you Mazola will give you a copy—or write us direct.

MAZOLA

Veal Cutlet
2 pounds veal cutlet 1 teaspoon salt
1/2 cup Mazola 1/4 teaspoon pepper
1/2 cup flour 1 tablespoon finely chopped parsley
2 cups milk

Dust the cutlet with salt and pepper and roll in flour. Put half the Mazola into hot iron pan; add the cutlet and sear on both sides very quickly. Add a little more Mazola if needed; cover pan and simmer on back of stove for 30 minutes. Turn once or twice, adding a little water. When tender add milk; remove cover and let it simmer 10 minutes.

Sweet Potatoes Glacé
Select medium large potatoes, uniform in size. Parboil, allow to cool, and then peel. Cut diagonally into quarter-inch slices. Have the sauce pan ready with just enough Mazola (every 4th) to cover the bottom. Cook quickly on both sides. Sprinkle with granulated sugar; cover the pan and put in the oven to glacé.

French Dressing
1/2 teaspoonful salt Dash Paprika
1 tablespoon vinegar 3 tablespoons Mazola
1 tablespoon white pepper 1 tablespoon onion
Add the vinegar and stir vigorously till the mixture thickens slightly.

Brain Gems
1 cup bran 1/2 cup molasses
1 1/2 cups flour 1/2 teaspoon soda
1 cup sour milk 1/2 teaspoon salt
2 tablespoons Mazola

Mix dry ingredients, add milk and Mazola; stir well and bake in hot oven in tin well greased with Mazola. If sweet milk is used substitute 2 heaping teaspoons of baking powder for the soda.
Pineapple Fritters
1 cup flour 1/4 teaspoon salt
1/2 cup milk 1 tablespoon Mazola
2 eggs 1 tablespoon sugar
1 rounded teaspoon 8 thin slices pineapple
1 spoon baking powder
Sift dry ingredients into bowl; add milk, well beaten eggs and Mazola. Wash, pare, and slice pineapple thin and remove the center. Dip in batter, remove with fork and fry in deep hot Mazola. Drain on paper and dust with sugar. Try this Recipe with canned sliced pineapple.

NUXATED the Strong IRON

Dr. Ferdinand King, a New York City Physician and Medical Author, says: "There can be no strong, vigorous, iron men nor beautiful, healthy, rosy-cheeked women without iron—Nuxated iron taken three times per day after meals will increase the strength and endurance of weak, nervous, run-down folks 100 per cent. In two weeks' time in many instances. Avoid the old forms of metallic iron which may injure the teeth, corrode the stomach, and thereby do more harm than good. Take only organic iron—Nuxated iron." It is dispensed in this city by all good druggists—Adv't.
